

REGISTRATION NON - THE

Breeders selecting the Registration Option can submit data on those females that they choose and for members selecting this option we have included a blank calving sheet which you may copy as often as you wish to register individual animals. The data will be shown on the registration paper along with any relevant EPD, as is currently the case. Data through this option will not be included in our Genetic Evaluation or in future maternal trait EPD development or other research projects.

Breeders may elect to enter into TOTAL HERD ENROLLMENT (THE) option at any time. If you wish to participate, please contact the office for your total herd enrollment forms. The reenrollment fee schedule will apply to those females that have previously been enrolled.
